

# Confirming USA Ultimate Team Participation

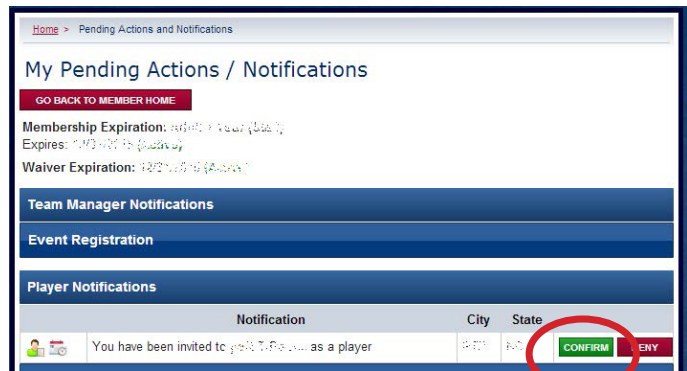

Once you have been added to a team by a team manager, you will need to confirm your participation to verify that the team manager didn't erroneously add the wrong account and to verify your consent to participate in USA Ultimate events.

- 1 Log into your USA Ultimate membership account here: <https://play.usultimate.org/members/login/>

- 2 Select the "Pending Actions/ Notifications" icon.

- 3 You will then see the team name with a green "Confirm" icon beside a red "Deny" icon.

- 4 Once you Confirm, the team manager will be able to add you to event rosters of events (tournaments, leagues, practices, etc) that you plan to attend.

**NOTES:**

- Selecting the "Deny" button will remove you from the team. If you do intend to participate, a team manager will need to add you again before you will be able to confirm.
- If you do not see a confirmation request, either you have already been confirmed/denied or your account has not been added to the team. Check with your team manager to confirm all of your account information is correct.
