## ULTIMATE FIELD LAYOUT

(with penalty marks, sideline buffers, 20 yard endzones)

• Leave a minimum of 5 yards of buffer space beyond the back of endzones, and 10 yards to anything that might be dangerous to players

• Remember that if you are putting another field with a parallel sideline to actually leave room for equipment between the equipment lines. 4 yards is a good minimum as it allows for the placement of 10' x 10' pop-up tents.

For Regionals: Lined fields are required for semifinals and finals.
